

The Department of Physics & Astronomy in the Faculty of Science at Western University is pleased to announce a search for a full-time faculty position in a research area related to applied biophotonics.

The successful applicant will receive a probationary (tenure-track) appointment at the rank of Assistant Professor or Associate Professor, or a tenured appointment at the rank of Associate Professor. The rank and salary will be commensurate with the successful applicant's qualifications and experience. The anticipated start date will be July 1, 2024.

The successful candidate will have research expertise in the physics of applied biophotonics. It will be to the applicant's advantage to show a strong connection with existing initiatives in Physics & Astronomy and the broader interdisciplinary research community at Western University. In addition to research in Physics & Astronomy, related expertise also resides in Medical Biophysics, Biomedical Engineering, Chemistry, and interdisciplinary centres such as the Brain & Mind Institute, Centre for Advanced Materials and Biomaterials, Institute for Earth & Space Exploration, London Health Science Research Institute, Robarts Research Institute, and Western's Bone and Joint Institute. Additional information about the Faculty of Science is available at <https://www.uwo.ca/sci/>.

knowledge and drives discovery with real-world applications. Western also provides an exceptional employment experience, offering competitive salaries, a wide range of employment opportunities, and one of Canada's most beautiful campuses.

London has a growing population of approximately 500,000 with a diverse cultural mix and the hospitals serve a region of two million. London is safe, family-
