

## Probationary (Tenure-track) position in Financial Analytics

The Department of Statistical and Actuarial Sciences, in the School of Mathematical and Statistical Sciences, Faculty of Science at Western University is pleased to announce a search for a probationary (tenure-track) position in Financial Analytics at the rank of Assistant or Associate Professor. The rank and salary will be commensurate with the successful applicant's qualifications and experience. In exceptional cases, the position may be tenured at the Associate Professor rank. The starting date will be July 1, 2024, or as negotiated.

This appointment is intended to bring new research both in the development of new methods and applications at the intersection of data science and financial modelling (broadly understood as Financial Analytics). Western recognizes that our commitment to equity, diversity and inclusion is central to the University's mandate as a research-intensive institution of higher learning. The University seeks qualified candidates who share our commitment to equity and inclusion, who will contribute to the diversification of ideas and perspectives. Candidates are also expected to show evidence of a commitment to equity, diversity, inclusion, and the promotion of a respectful and collegial learning and working environment.

The successful candidate will be an **Assistant or Associate Professor** who will lead the Department of Statistical and Actuarial Sciences. The department hosts undergraduate programs in Actuarial Science, Data Science, Financial Analytics, graduate programs with M.Sc. and Ph.D. specializations, a professional analytics (together with the Department of Computer Science) and is also a key component of a new initiative that will unify instruction in Data Science across the campus community.

in a collaborative professional Masters in Financial Economics program jointly offered with Economics, Law, and Business. Faculty within the department study a diverse range of both theoretical and applied problems and include members with joint appointments in Computer Science, Economics, Earth Sciences, and the Brain and Mind Institute.

With annual research funding exceeding \$220 million, and an international reputation for success, Western ranks as one of Canada's top research-intensive universities. Our research excellence expands knowledge and drives discovery with real-world application. Western also provides an exceptional employment experience, offering competitive salaries, a wide range of employment opportunities and one of Canada's most beautiful campuses.
