Admission to the Bachelor of Medical Sciences (BMSc) Program occurs in Year 3, usually after the successful completion of Medical Sciences 1 and 2 (see Medical Sciences First Entry). When applying for admission to the BMSc Program in Year 3, students also apply for admission to the various Modules Offered in the BMSc Program. Students must be admitted to the BMSc Program in Year 3 to be eligible to progress to the BMSc Program in Year 4.

Although admission to the BMSc Program in Year 3 is assured for students in Medical Sciences 2 who satisfy certain conditions, it is anticipated that space will be available for additional students. These students will comprise the “competitive pool”.

Assured Admission to Year 3 BSc for Students in Medical Sciences 2:

For assured admission, the following conditions must be satisfied by the end of the Fall/Winter of Medical Sciences 2:

- x A full load of 5.0 courses must be successfully completed (i.e., no failures) during the Fall/Winter of Medical Sciences 2 (September-April);
- x Any course(s) taken during the summer sessions either before or after Medical Sciences 2 must be successfully completed (i.e., no failures);
- x All courses listed in the Admission Requirements for the module to which the student applies must be completed by the end of the Fall/Winter of Medical Sciences 2. See the BSc website for the 2000-level Admission Requirements for BSc Double Majors;
- x The specified minimum mark must be achieved in the first attempt at each course listed in the Admission Requirements for the module to which the student applies;
- x A minimum average of 80% must be achieved on the 2000-level courses listed in the Admission Requirements for the module to which the student applies. If 3.5 or more 2000-level courses are listed in the Admission Requirements, a minimum average of 80% is required on the best 3.0 of these 2000-level courses.

Students in Medical Sciences 2 who satisfy the conditions for assured admission

receive priority admission to Year 3 BSc for Students in Medical Sciences 2.
